

ANTI RUST 7 A

Product code: 265201601

Oil based rust preventative

This product is an excellent oil-based rust preventive which forms a thin oily film that gives long term protection to ferrous and non-ferrous metals.

Applications

The product was introduced for applications where protection is required during indoor storage for periods of six to twelve months and outdoor 6 months.

Typical applications are:

- Protection of finished machine components prior to packaging
- Inter-operational protection of finished machined or ground metal surfaces such as valves, rollers and fasteners
- Protection of parts during storage where minimum film thickness is required

Typical Performance Data

Typical	Value
Appearance	Light Brown
Density @ 20 °C, g/cm ³	0.86
Viscosity @ 40 °C, cSt	7.2
Film type	Oily
Flash point, °C	65
Indoor protection (months)	6-12
Outdoor protection (months)	6

All performance data on this Technical Data Sheet are indicative only and can vary during production.

Use

Can be applied by brushing, dipping or spraying at a temperature of 5 °C to 30 °C. Removal by solvents or alkaline cleaner.
