

# CLEANMAX BIO HD

Product code: 262100701

## Biodegradable cleaner

This product is a very active alkali based all-round cleaner with strong cleaning properties and high biodegradability at the same time. This product is perfectly suitable for cleaning of surfaces, pumps, chains, pipelines and floors where it loosens and cleans dirt, grease, oils or other types of residues.

## Benefits & Advantages

- Biodegradable and non-toxic
- All-round
- Friendly for operators
- Easy to dilute
- Extremely effective even aggressive residue
- Does not chemically attack lacquer.
- Non flammable

## Typical Performance Data

Typical	Value
Density @ 40 °C, kg/l	1.15
Flash point, °C	None
Biodegradability, %	>90

All performance data on this Technical Data Sheet are indicative only and can vary during production.

## Use

It can be used in steam or high-pressure cleaners (1:9), spraying (1:7) or manually (1:1) and cleans effectively when diluted with both warm and cold water. Dilute according to grade of pollution.
