

# CUT 103 E

Product code: 265400601

## High performance forming and machining oil

This product is a light, clear and transparent oil. It is formulated from selected hydrocarbons with additives of great chemical stability. It provides high lubricity leaving the minimum amount of the residue after fast evaporation. It does not contain chlorine.

## Applications

It is aimed for metal forming of iron, steel, stainless steel, and aluminium. It is designed for finishing applications where the highest quality surface is required. It is also suitable for general machining of iron, copper, bronze, aluminium and brass materials.

## Benefits & Advantages

- Excellent lubricating properties
- High performance
- Improved tool life and surface finish
- Improved productivity
- Chlorine, silicon and halogenated products free
- High evaporation

## Typical Performance Data

Typical	Value
Appearance	Liquid
Density @ 20°C, g/cm <sup>3</sup>	0.83
Viscosity @ 40°C, cSt	5
Copper corrosion test	1a
Flash point, °C	>115
Pour point, °C	<-35

All performance data on this Technical Data Sheet are indicative only and can vary during production.
