

CUT 103

Product code: 265400501

Machining and sharpening neat cutting oil

This product is a light transparent cutting oil with good cooling properties. It is formulated with solvent refined mineral oil and carefully selected additives that avoids welding of part-tool, provides superior surface finish, extends tool life and enhances machine and fluid maintenance. The product is chlorine free.

Applications

It is designed for general machining applications of all type of materials such as aluminium, steel, cast iron, brass, bronze and copper. It is also suitable for sharpening saw blades, polishing and grinding operations.

Benefits & Advantages

- Good flushing, cooling and lubricating properties
- High performance
- Improved tool life and surface finish
- Improved productivity
- Chlorine free

Typical Performance Data

Typical	Value
Colour	Clear yellow
Viscosity @ 40 °C, cSt	6
Copper corrosion	None
Flash point, °C	120
Pour point, °C	-10

All performance data on this Technical Data Sheet are indicative only and can vary during production.
