

# CUT 14 AT

Product code: 265400801

## High performance neat cutting oil

This product is a light mineral oil type cutting fluid formulated from selected paraffinic oils fortified with stable additives that gives high performance in machining operations. Does not contain chlorine or heavy metals.

It is designed for turning, milling, drilling and tapping. It is suitable for all ferrous materials specially for machining steel, stainless steel, yellow metals and aluminium.

## Benefits & Advantages

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- Low foaming
- Improved productivity
- Better health and safety conditions

## Typical Performance Data

Typical	Value
Colour	Clear yellow
Density @ 20 °C, gr/ml	0.88
Viscosity @ 40 °C, cSt	15-18
Flash point, °C	175
Pour point, °C	-15

All performance data on this Technical Data Sheet are indicative only and can vary during production.
