

CUT 62 A

Product code: 265402301

Machining neat cutting oil

This product is light oil formulated from selected paraffinic base oils with additives with high chemical stability.

It does not contain chlorine or heavy metals.

Applications

It is designed for machining, grinding, turning, gear grinding, milling, tapping and hobbing. It is suitable for all type of steels and alloys, not suitable for copper or other yellow metals.

Benefits & Advantages

- Good flushing, cooling and lubricating properties
- Minimum risk of dermatitis
- Improved tool life and surface finish
- Improved productivity

Typical Performance Data

Typical	Value
Colour	Clear yellow
Viscosity @ 40 °C, cSt	12.5 – 11.5
Flash point °C	180
Pour point, °C	-10
Iron Corrosion	None
Type	Active at high temperature

All performance data on this Technical Data Sheet are indicative only and can vary during production.
