

CUT BIO 10

Product code: 265402701

Fully synthetic neat cutting oil

This product is a biodegradable and low viscosity synthetic oil of high chemical stability and low mist formation. It is specially formulated for sharpening and grinding operations. It is suitable for diamond and cubic boron nitride (CBN) grinding wheels.

Benefits & Advantages

- Good flushing, cooling and lubricating properties
- High productivity
- Improved tool life and surface finish
- High performance
- Biodegradable
- Less consumption

It is designed for finishing applications where the highest quality on surface is required. It is suitable for severe precision operations as sharpening and grinding of tools and circular saws. Suitable for all type of materials: steel, cast iron, brass, bronze, copper and aluminum.

Typical Performance Data

Typical	Value
Colour	Colourless
Viscosity @ 40 °C, cSt	8-11
Density @ 20 °C, gr/ml	0.87
Flash point, °C	195
Pour point, °C	-3

All performance data on this Technical Data Sheet are indicative only and can vary during production.
