

# FDX 410 A

Product code: 265406101

## Forming & Wire drawing oil

This product is an oil with high content of EP additives and corrosion inhibitors to avoid aluminum surface oxidation.

It has been specially formulated for forming and drawing of aluminium parts. It is also suitable for wire drawing as the specially selected additives will guarantee a bright aspect of the wire.

Product does not contain chlorine compounds.

## Benefits & Advantages

- High wire section reductions.
- Less risks of seizures
- Minimum wear coefficient
- High film strength
- Better wire finishing

## Applications

The product may be applied pure, with a brush, cloth or similar.

## Typical Performance Data

Typical	Value
Appearance	Oily liquid
Colour	Amber
Density @ 20 °C, gr/ml	0.89
Viscosity @ 40 °C, cSt	100-110
Flash point, °C	230
Pour point, °C	-6

All performance data on this Technical Data Sheet are indicative only and can vary during production.
