

FORMMAX DH 10

Product code: 267300101

Concrete release agent

This is a product formulated to give an easy and complete release of concrete forms. The product has been designed with last generation additives to provide good release due to a thin film formed between the mould and the concrete part, does not have negative impact on operators and provides longer life to moulds.

Applications

It is used pure as supplied. It can be applied with brush, roller, rag or spray gun.

Benefits & Advantages

- Operator friendly
- Minimum formation of bug holes
- Longer mould life
- Good finishing and fast release
- High efficiency

Typical Performance Data

| Typical | Test Method | Value |
|-------------------------------------|-------------|--------------|
| Appearance | | Oily liquid |
| Colour | | Clear yellow |
| Density @ 20 °C, gr/cm ³ | | 0,85 |
| Flash point, °C | | 150 |
| Viscosity @ 40 °C, cSt | | 9-12 |
| Mould corrosion | | No corrosion |
| Pour point, °C | | -9 |

All performance data on this Technical Data Sheet are indicative only and can vary during production.
