

FORMMAX ECO

Product code: 267300301

Biodegradable concrete release agent

This product is a biodegradable concrete release product formulated with vegetable components and special additives to give easy and complete release of concrete forms and moulds. The product has been designed to provide good release thanks to the thin film formed between the mould and the concrete part, safe with no impact on operators and provides longer life to moulds. It is suitable for refractory concrete.

Benefits & Advantages

- Operator friendly
- Biodegradable
- Longer mould life
- Good finishing and fast release
- High efficiency
- Minimal bug holes formation
- Ready to use

Applications

It is used pure as supplied. It can be applied with brush, roller, rag or spray gun. Does not expose the product to low temperatures because it could affect stability and other properties.

Typical Performance Data

Typical	Value
Appearance	Light yellow
Density @ 20 °C, gr/cm3	0.875
Flash point, °C	110
Viscosity @ 40 °C, cSt	10-14
Mould corrosion	No corrosion
Coverage rate, m2/l	40-50

All performance data on this Technical Data Sheet are indicative only and can vary during production.
