

GLASSMAX 2

Product code: 267200101

Evaporable cutting oil

A light and transparent solvent base fluid formulated for cutting laminated glass. This is volatile product that does not leave any residues.

This product is used to cut laminated glass, in automatic or manual process. The oil improves the cracking quality and direction.

This product is supplied as a ready-to-use product and does not require diluting. As it is a solvent base product pay attention to possible paints attack.

Benefits & Advantages

- No residues left
- Does not attack metals
- Low toxicity
- Easy to apply
- Better lubrication of the operation
- The small glass pieces created during cutting remain next to the cutting area

Typical Performance Data

Typical	Test Method	Value
Appearance		Light oily liquid
Viscosity @ 40°C, cSt		1.5-1.7
Density @ 20 °C, g/cm ³		0.800
Flash point, °C		63
