

# GREASE INOR H 2

Product code: 264902901

## Inorganic grease for bearings

This product is a superior quality inorganic clay grease designed for demanding lubrication application. It is a not melting grease produced with high viscosity index base oils.

It is intended for medium and low speed applications where operating conditions are severe and standard grease cannot be used. It is suitable to lubricate bearings, hinges, chains and pins.

## Benefits & Advantages

- Resistant to high temperatures
- Operating temperatures from -30 to 180 °C
- Does not drop
- Resists mechanic working
- Excellent thermal stability
- Oxidation resistance
- Long life grease

## Typical Performance Data

Typical	Test Method	Value
Colour	Visual	Brown
Thickener	-	Inorganic
Base oil viscosity @ 40 °C, cSt	ASTM D-7152	460
NLGI grade	ASTM D-217	2
Penetration @ 60W, x 0,1 mm	ISO 2137	265-295
Dropping point	IP 396	None
Service temperature, °C	-	-30 – 180

All performance data on this Technical Data Sheet are indicative only and can vary during production.
