

PASTE MEISSEL

Product code: 265001101

Special paste for socket and pneumatic tools

This product is a copper coloured paste based on biodegradable synthetic esters, inorganic thickener and specially selected solids. Suitable for use under water or in high ambient temperatures.

It has been developed for chisels, hydraulic hammers, socket and other power tools manufactured by, e.g. Krupp, Montabert, Rammer, Indeco etc. with hammer capacities between 75 and 6000 kg. Also suitable for air-hoses or micro-fog lubricators for lubrication of hammers, pile-drivers, drills, grinders, pumps, hoists, clamps and vices.

Benefits & Advantages

- Provides good protection against corrosion
- Free from mineral oil
- Biodegradable
- Free of sulphur
- Free of lead and nickel
- Good water resistance and separating properties
- Good sealing properties
- Good heat reduction capacity
- Excellent tackiness

Typical Performance Data

Typical	Test Method	Value
Colour		Copper
Thickener		Inorganic
Base oil		Ester
Base oil viscosity, 40°C, cSt		32
NLGI class		1
Density @ 15°C, kg/m ³		1150
Water resistance %loss at 90°C		0
Temperature range, °C		-30 – 1200

All performance data on this Technical Data Sheet are indicative only and can vary during production.
